CADCOACHING.co.uk
AutoCAD & MicroStation training

Hilton Quinn, N.Dip Arch

Profile

- **Background** - Hilton has 14 years experience in the Architectural and construction related industry where it has been his primary role to manage jobs and teams in a senior architectural role, through all stages, from design intent to construction information. He has been involved in various projects namely commercial office developments, residential, industrial, R&D, public buildings and education.

  This has enabled Hilton to develop CAD skills pertinent to the construction industry and in turn assist the trainee with the uses of CAD relevant to the working environment. He has been involved with CAD management and support of MicroStation 2D and 3D for 8 years and has provided training for the past year. Further he is experienced and proficient in AutoCAD 2005 and Architectural Desktop enabling him to understand the needs of individuals requiring transition training from AutoCAD to MicroStation

Qualifications:

- National Diploma Architecture
- Natal Senior Certificate
- Internal Auditor
